

## energi **Exploration & Production Program**

### **A Risk Management & Insurance Program You Need to Explore!**

*Energi is an insurance program for exploration & production companies that are committed to Industry Best Practices*

Energi's Exploration & Production Program is a unique risk management solution and insurance program for companies in this energy segment that are committed to Best Practices. The program is specifically designed for the onshore supply to and services of oil and gas drilling operations. The targeted classes of business include the following service contractors: Site Preparation, Drilling, Well Completion, Plug and Abandon, and Various Services.

Coverage is offered for general liability, property and commercial automobile. The program is available in all 50 states.

### **The Energi Difference**

**Selection of the Best Companies:** Energi's Program is only offered to companies who exhibit a commitment to loss prevention and who implement industry best practices. These companies sustain better loss experience which directly results in controlling their insurance costs. In order to ensure this, ALL member companies must meet our high underwriting standards and are required to pass a risk assessment compliance audit.

**Focus on Risk Management & Loss Prevention:** The Energi program provides on-going Risk Management and Loss Prevention support including training and communication programs that support industry best practices.

**Claims Management:** The program offers fast, efficient and fair resolution of claims. Energi's aggressive claims management oversight focuses on inclusion of the policyholder rather than exclusion during the claims process.

**Coverage:** Energi's underwriters have created a program with all necessary coverages, some of which competitors may not include. The Energi Fuel Distribution Program will consistently deliver responsive and creative solutions to the unique needs of energy companies.

**Competitive Premiums:** The Program offers fair, equitable and justifiable premiums. Since premiums are based upon your loss experience, not on the loss experience of your industry peers, you will see more stability in your pricing. The insurance program will eliminate the cyclical pricing nature of the traditional insurance market.

**Discover the Energi Difference which gives you Control, Stability & Ownership of your risk management solutions.**

energi = Opportunity

All of these differences result in a unique opportunity for your company.
